# 81184

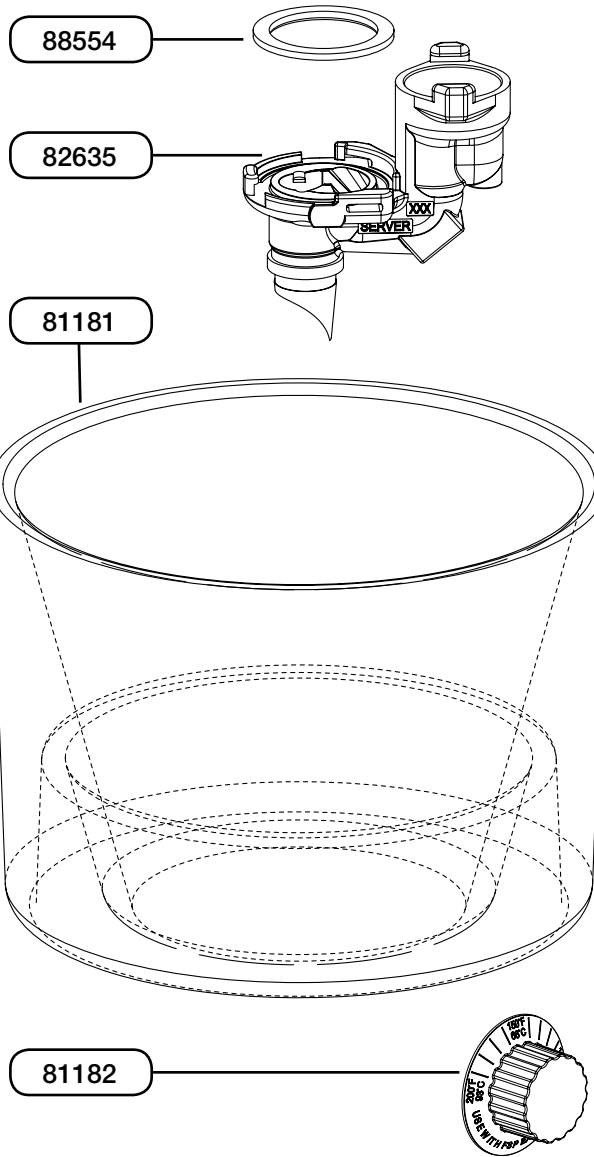

## Kit FSP Express Connection

Used on Series  
prior to 12L

### Pouched Product Conversion Kit

This 81184 Kit allows conversion of an existing FSP unit into a fudge or caramel pump utilizing a 48 oz. (1.4L) Cryovac™ pouch with fitment. This eliminates the need of a water bath, while maintaining a consistent product temperature.

(FLAT SIDE UP)

If Series is after 12L:  
Consider an EZ TOPPER
