

# Discontinued Express™ Dispenser

## Round, Stainless Steel Express™ 07030

---

Effective immediately, Server Products has discontinued the Model SS-SE round, stainless steel Express™ dispenser (p/n 07030).

Unfortunately, the metal bending process used to stretch the steel and create the dispenser's round look weakens the shroud's integrity, making it prone to splitting and cracking over time.

As an alternative, we recommend the Model SE round, black plastic Express™ dispenser (p/n 07010).

If you have any questions, please contact Customer Service at [spsales@server-products.com](mailto:spsales@server-products.com).
