## PARTS | ProPortion Single Tip

Model: PRO-P

VIEW OPTIONS  
WHERE TO BUY

RETURN TO LISTING

Thankfully, ProPortion™ Dispensers don't have a lot of parts. However, if you've lost one or are setting up some backup canisters for the rush, here's what you may need.

Individual parts pages will include the following information:

- Included with new dispenser | Yes/No; Part Number
- Required for operation | Yes/No
- Interchangeable | Yes/No; with Part Number(s)

### Parts Below Fit / Work With

- PRO-P 100120 | ProPortion Single Tip Dispenser

**Note** | The 2-Year Warranty icon below relates to the finished good, ensuring your dispenser is free from defects in workmanship and materials. If you're here because something failed, we're here to make it right, let's chat or connect via email.

That said, wear parts (those that can wear out) are just that and can be easily replaced to get you up and serving again. For ProPortion, wear parts would be things like the spring, seal, and valves.
