

## QUICK START GUIDE

# Server WireWise® Organizer

Tips and tricks to help you get started with your new WireWise® organizer.

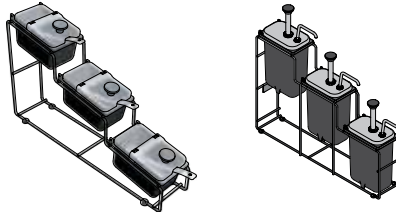

1

Make sure the four rubber feet are in place on the bottom of the wire rack.

2

WireWise® organizers come in several varieties. If the organizer you purchased comes with accessories such as pumps, jars, or lids, separate instructions will be included for those accessories.

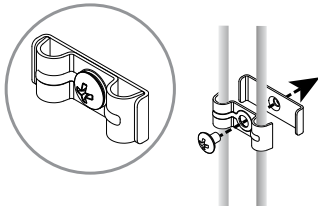

3

Clean the organizer with dishwashing soap and hot water, rinse fully with clean water, sanitize all parts according to local sanitization requirements, and air dry all parts fully. The WireWise® is finished with powder coated paint. Treat it with care by washing only with a non-abrasive cleaner.

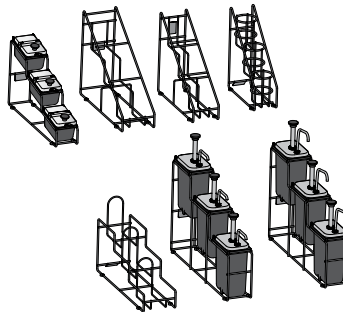

4

A WireWise® link kit can be purchased separately. This allows clipping two organizers together to form one. Order 4 pk kit 88716.

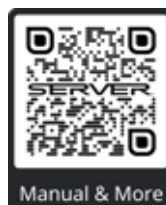

5

WireWise® organizers.
