

Squeeze Bottle Application Guide

Warm Applications

Signature Touch™ Bottle Warmer

Model SBW

The Signature Touch™ water-bath warmer keeps toppings ready for plating and more! Already have an FS or FSP topping warmer? Add a squeeze bottle inset (86819) to your FS base!

For details, see sheet [02131](#).

IntelliServ™ Food Pan Warmer

Model IS-1/3

Heat and hold foods at a precise temperature while utilizing minimal counter space. To warm squeezable toppings, pair the IntelliServ™ with with 1/6-size squeeze bottle holders.

For details, see sheet [02091](#).

5 qt Hot Topping Warmer

Model FS-4 Plus

The squeeze bottle inset fits nicely in the FS-4 Plus base. When you're not dishing soups or specialty sauces for dinner, warm squeeze bottles to decorate desserts.

For details, see sheet [02008](#).

Twin Hot Topping Stations

Models Twin FS, Twin FSP & Twin FS/FSP

Replace one pump or lid and ladle with a squeeze bottle inset so you can ladle sauces for one dish and drizzle for the next.

For details, see sheet [02051](#).

Cold Applications

Squeeze Bottle Holders for Cold Tables

Models SBH

Cool squeeze bottles in cold tables or other refrigeration units – open frame allows cool air to surround bottles while the top traps air below. For details, see sheet [02082](#).

Squeeze Bottle Holders with Insulated Bases

SBH Models with MB bases

Insulated bases let you cool and organize squeeze bottles wherever they're needed. No electricity needed – bases are cooled using eutectic ice packs.

For details, see sheet [02121](#).
