

INTELLIGENT BY DESIGN™

TOUCHLESS SENSOR DIVIDER KITS (FOR MODELS SE-3-T, SE-3-TDI, SE-5-T & SE-5-TDI)

Touchless Sensor Dividers can be used to minimize the chance of patrons mistakenly activating a sensor with an arm or purse when trying to activate a different sensor.

1. Remove dividers from box.
2. For triples, there will be two dividers. For quintuples, there will be four dividers.
3. For triples, place the dividers on both sides of the middle sensor. For the quintuple, place the dividers on both sides of the second, third and fourth sensor.
4. Dividers will secure to the desired location with the affixed magnet at the base of the dividers.

Touchless Sensor Dividers can be wiped clean but do not submerge in water or clean in the warewasher.
