

Proposition 65 Requirements Warning Labels

Update Bulletin

Server Products complies with Proposition 65 regulations for finished goods that contain substances that are required to contain a warning label when sold in California.

Server currently has two warning labels that are used based upon the Proposition 65 substance contained in the finished good. The warnings are printed on the carton label of the finished goods.

Warning for products containing BPA:

Warning for products containing Carbon Black:

Typical box label with warning:

The following page includes a list of all finished goods manufactured by Server Products that may contain substances that require a Proposition 65 warning label when sold in California.

Please reach out to Server Products' customer service department if you have questions or need further information: spsales@server-products.com
