IXD™ SERIES

Flavor+™

SYRUP DISPENSER

SPEC SHEET

FAST FACTS

IXD™ Series Flavor+™ Syrup Dispenser delivers upon the exclusive Core Four™ Platform - unprecedented speed of service, efficiency, consistency and simplicity. Dispense precise portions of up to 14 syrup and sauce flavors and maximize workflow with one centralized modular unit that creates a complete menu of perfectly sweet beverages.

APPLICATION

- BOH beverage order preparation

DETAILS

- Dispense directly from up to 14 food product containers - maximum dimension of container is 3 ¾" diameter and 12" long - comes with connectors for 28mm and 30.5mm container caps
- Internal holding racks are configurable for flexibility with different food container types
- Intuitive control panel enables quick menu item selection and dispense as well as easy product refills and clean-in-place procedure prompts
- Configurable portions in 1/8 oz increments up to 5 oz maximum portion
- Capable of network connectivity for future expansion of control and management
- Unit is scalable and configurable with (4) different main configurations from (6) to (14) products

(14) Flavor Stacked Configuration
101575

Patent Pending

Customizable Cabinet Combinations

Different cabinet types work with large or standard bottle sizes and for thin or thick syrups. Below are a few examples of combinations to accommodate the number of syrups, the size of the bottles, and the viscosity of the syrups. The cabinet combination can be configured to optimize your specific menu offering.

Example Combinations

ABBC - 101575
14 Flavors

AFF
8 Flavors

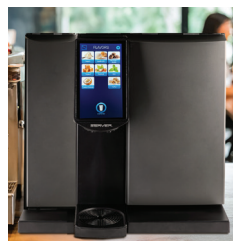

BAB
12 Flavors

EFFC - 101576
10 Flavors

CAB
8 Flavors

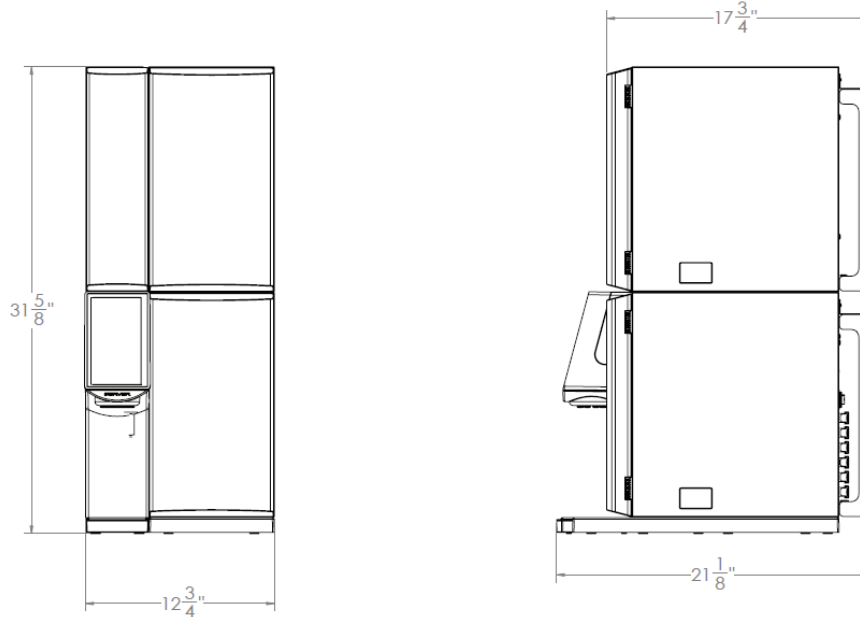

Sweet has never been so smart.
