SERVER

IxD® SERIES

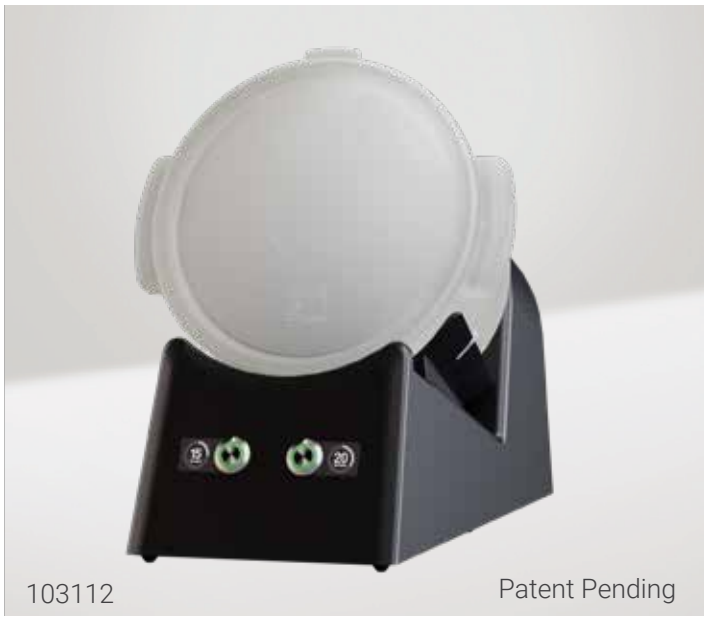
Spin+®

SAUCE COATER

SPECIFICATION SHEET

FAST FACTS

IxD® Series Server Spin+® Sauce Coater delivers upon the exclusive Core Four Platform - unprecedented speed of service, efficiency, consistency and simplicity. Laborsaving technology delivers consistent flavor at every turn - increasing back-of-house throughput and enhancing the front-of-house experience.



103112 Patent Pending

APPLICATIONS

- Properly coating an order of wings
- Use in conjunction with Server's Sauce+®

DETAILS

- Enables ideal sauce coating for Traditional Wings, Boneless Wings and Cauliflower Wings - 2 buttons for a 15 or 20 second cycle
- Intuitive operation with the run button lighting up when bucket is properly installed and ready to use
- Small countertop footprint with a height of less than 14" and a width less than 11" allows for easy integration into the workflow of the kitchen
- Up to (6) units can be electronically banked on a power distribution unit (PDU) for less cords

Consistent sauce coating, increased throughput.

A consistent, automated way to properly coat an order of wings with a push of a button, that removes a laborious step in wing order preparation.
