

# STIR UP SOME PROFITS.

## BUTTER MIX-N-SERVE™ WARMER/MIXER

Ideal for drawn butter, hot chocolate or other foods that separate easily – magnetic agitator continuously stirs

5 1/2 qt vessel and melting basket allow you to add solid butter to accommodate peak periods

Spigot-style faucet keeps serving area clean; no dripping

Transfer labor away from the busy cook line – place warmer at the wait station

Separate switches control heat and stir functions

**BUTTER MIX-N-SERVE™**  
Model MNS

### Food Applications

- Place near wait station to transfer labor from cook line
- Continuously stirs contents to keep food uniform – works well for foods that separate like drawn butter and hot chocolate

### Fast Facts

Server's Mix-N-Serve™ warmer features a magnetic agitator to create a strong vortex, making it ideal for products that separate like butter and hot chocolate.

The compact, easy-to-use design allows for labor to be transferred from a busy cook line to a wait station.

Includes a 5 1/2 qt stainless steel vessel and melting basket for adding solid butter as melted batch is depleted.

The temperature-controlled thermostat provides accurate heat control with locking design to prevent accidental changes.
