

WARM WELL. SERVE BETTER.

FOOD & TOPPING WARMERS

Use for more than just desserts – quickly warm fudge, caramel, gravy and other dipping sauces or foods from a #10 can or 2.8 L jar

Add your Signature Touch™ to dishes, desserts and specialty drinks – keeps (3) squeeze bottle toppings warm and within reach

Temperature-sensing thermostat auto-adjusts to provide accurate, even heat

Single Well Warmers

Models FS and SBW

Food Application

- Make plating quick and easy – move topping bottles to finishing areas
- Heat and serve gravies, sauces or dessert toppings

Fast Facts

The flexible design of this warmer base allows you to serve with a pump (FSP), ladle (FS), or squeeze bottles (SBW).

Server's FS and SBW water-bath warmers keep toppings at a safe temperature all day long. Serve more than just fudge and caramel; FS allows you to heat and serve other gravies and dipping sauces from a 2.8 L jar.

Temperature-sensing thermostat turns the heating element on and off to prevent burning and scorching so there is less food waste and clean-up is a breeze!

Put your Signature Touch™ on dishes – keep three squeeze bottle toppings warmed at your workspace. Great for adding final touches to plates, desserts or specialty drinks.
